FAST E gaming Society

PROJECTS

1. DxhubXon (2024 - Present FYP)

- D-HubXon is a decentralized freelance marketplace system that allows service providers, software developers, and clients to connect directly and securely. It eliminates intermediaries and offers a variety of features, such as decentralized service transactions, a wide range of software products for instant purchase, a transparent rating system, and an education hub for newcomers. D-HubXon promotes affordable business and mutually beneficial collaborations, all of which are supported by smart contracts that ensure fairness and integrity.

• TOOLS AND TECHNOLOGIES:

React js, Nodejs, Express js, Postgress, Solidity,
Web3js
